

Christoph Funke

Chief Technical Operations Officer

Christoph leads Lupin's global technical operations, overseeing the strategic management of critical functions including manufacturing, supply chain, and procurement.

With over thirty years of experience in the global pharmaceutical industry, he is known for his unwavering commitment to innovation and excellence. His career encompasses leadership roles at Strides Pharma Science and Fresenius Kabi.

Armed with an engineering degree from South Westphalia University of Applied Sciences, Germany, Christoph brings a wealth of expertise and a proven track record of success to his role.
